README.md

Android Vision API Samples

These samples demonstrate the vision API for detecting faces and barcodes.

Introduction

Pre-requisites

Android Play Services SDK level 26 or greater.

Getting Started

The samples build using Gradle in Android Studio. There is no special configuration required.

Support (Post Release)

For General questions and discussion on StackOverflow:

- Stack Overflow: <http://stackoverflow.com/questions/tagged/android-vision>

If you've found an error in this sample, please file an issue: <https://github.com/googlesamples/android-vision/issues>

Patches are encouraged, and may be submitted by forking this project and submitting a pull request through GitHub.
